Division of student affairs
STAMP, University of Maryland
College Park, MD 20742

Dear Division of student affairs:

My name is Arpit Joshi and I am a graduate student pursuing my Master of Engineering in Cybersecurity. I am writing this to apply for the position of TerpZone student assistant.

I understand that the position requires dealing with a large and diverse group of students. I believe that I will be able to cope with this perfectly. My father was in the Indian Air Force which means that I have been traveling all my life and have met a lot of people throughout the country. I have also worked with teams that had a lot of students (Next Tech Lab had more than 100 students) and have some experience in managing as well (used to manage students during my time at Next Tech Lab).

I am very disciplined and have a strict eye for details. I do not overlook any suspicious activity whatsoever. I am confident that I will prove to be an asset to the team if given the opportunity.

I thank you for your time and patience

Sincerely,

Arpit Joshi
